PROFESSIONAL SUMMARY

Full-Stack Developer with over 5 years of experience designing, developing, and maintaining high-performance web and mobile applications. Strong expertise across the JavaScript/TypeScript ecosystem (React, Node.js, NestJS, Next.js), Flutter, and Java/Spring Batch. Proven track record leading impactful projects in FinTech and institutional sectors (SankMoney, Yenga, Ikoddi). Recognized for technical rigor, application performance optimization, team mentoring, and a strong focus on end-user satisfaction.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Dart, Java

Frameworks & Libraries: React.js, Next.js, Node.js, NestJS, Flutter, Spring Batch

Databases: PostgreSQL, MySQL, Firebase, Couchbase, Prisma (ORM)

DevOps & Tools: Git, GitHub, GitLab, Docker, CI/CD

API & Architecture: REST APIs, performance optimization, application architecture

Operating Systems: Linux, Windows (installation and configuration)

Productivity & Collaboration: Microsoft Office, Google Workspace, project management tools

PROFESSIONAL EXPERIENCE

Full-Stack Developer — KREEZUS 2021 – Present

- **Design and development of complex software solutions:** drafted functional and technical specifications and led the full project lifecycle, from requirements analysis to production deployment.
- **Development team leadership:** supervised and coordinated a technical team to ensure deliverable quality, on-time delivery, and adoption of development best practices.
- **Application performance optimization:** performed technical audits and implemented corrective measures, reducing average application load time by 20%.
- **Testing and quality assurance:** actively contributed to unit, functional, and regression testing phases to ensure reliability, stability, and maintainability.
- **Stakeholder communication:** served as a regular point of contact for users, project managers, and other stakeholders to keep development aligned with business expectations.

Web Administrator — JDWS 2021 – 2023

- **Showcase website design and development:** built a modern, responsive web interface to strengthen the brand image and effectively present the services offered.
- **Platform management and administration:** proactively monitored the application environment to ensure long-term performance, security, and reliability.
- **Hosting and uptime:** set up a robust hosting infrastructure ensuring 24/7 availability and an optimal user experience.
- **User training:** organized and led training sessions to support digital tool adoption and strengthen internal skills.

- **Custom HR management tool:** developed and deployed an in-house HR solution to streamline human resources management and automate administrative processes.

Developer Intern — Société Générale Burkina Faso October 2020 – February 2021

- **Bank loan simulation platform:** designed and deployed a modern interface enabling clients to simulate bank loans in real time.

KEY PROJECTS

SankMoney — Project Lead and Developer

- Led the full lifecycle of technical projects: defined clear objectives, planned and tracked progress, assessed risks, and maintained proactive communication with stakeholders.
- Mentored and supervised a development team; introduced systematic code reviews to ensure code quality and alignment with best practices.
- Coordinated deployment phases (test and production environment setup, validation protocols, hotfix tracking) for smooth, uninterrupted releases.
- Designed and developed new features integrated seamlessly into the existing architecture, supported by unit tests.

Yenga — Developer and Technical Support

- Designed and built the mobile application end to end, from functional requirements analysis to deployment, leveraging modern frameworks for a smooth and performant user experience.
- Maintenance and bug fixing: regular updates, fast resolution of issues, and continuous performance optimization.
- Provided responsive technical support through dedicated channels and incorporated user feedback into product improvements.

Ikoddi — Developer and Technical Support

- Built a messaging and credit distribution platform allowing companies to send promotional messages, airtime, and internet bundles at scale.
- Adopted by several leading institutions to manage their communication campaigns efficiently.

EDUCATION AND CERTIFICATIONS

Project Management Certification (Google) — Coursera April 2024 – September 2024

Google project management certification program.

Web and Mobile Development Certification — Simplon Burkina January 2020 – October 2020

Intensive training program in web and mobile development.

PROFESSIONAL STRENGTHS

- Strong organizational skills with the ability to handle multiple tasks in parallel.
- Solid cross-functional communication, fostering teamwork and stakeholder coordination.
- Pedagogical mindset: technical support and end-user training.
- Continuous focus on code quality and application performance improvement.
- End-to-end management of complex software projects, from planning to production.
